Summit: Port of Spain, Trinidad and Tobago (May 2009)

Topic: Public and Private Cooperation (Ministerials Resources)

Mandate: We will continue to work towards eliminating administrative and bureaucratic barriers to the creation of new public and private enterprises. We will therefore take the necessary and feasible measures to simplify the processes involved in establishing and closing business ventures, with the goal of reducing business start-up time to a maximum of 30 days by 2015. We request that the IDB, World Bank, ILO and other relevant regional organisations support national and local government efforts to improve the legislative frameworks and administrative procedures for achieving this target.
